

To Principal Mannion
and the school council,

May 9th, 2006

I would like to take this opportunity to express to you, my deep felt appreciation and sheer enjoyment over last weeks Faith Night.

Due to the participation and commitment of the student body, school staff and community, a memorable evening of celebration and contemplation was experienced by all who were in attendance.

A large "Thank-You" goes out to the Christian rock band — Blue Veil — who provided not only exceptional entertainment as a band but words of inspiration through their fine music.

In current society, we often hear the media outlining disconcerting and immoral behavior exhibited by todays youth; however, little commentary is made honouring the many young adults who have made invaluable contributions and who have provided much inspiration to not only their peers but to school-aged children and adults alike. «Blue Veil» symbolizes all that is good and fine in the younger generation of today. The combined talents of the three brothers and their calling to Christian education through song and their ministry has positively impacted upon the Corpus Christi School community

..... over

.....
and, as such, I encourage other schools within the Catholic school board to experience the power of faith through song as presented by «Blue Veil».

Thank you for a memorable evening.

Caroline Moore.
